STACK'S SALE SHOWS STRENGTH OF TYPE MARKET

The Market in Depth

Non-generic coins are as popular as they have ever been. Nearly every dealer we speak with, has want lists that contain better-date coins. Meanwhile, many dealers concern themselves with the fact that we are not gaining widespread interest in numismatics (attrition may be eating at the number of collectors involved in numismatics). Although, the types of collectors currently involved with numismatics, seem to be very serious about their specialized interests. These collectors are concerned with quality, not necessarily the best condition, but quality in relation to price. They are also concerned with locating the better dates, or rare dates, or, the very special dates they are missing from their sets.

These key date issues are at the very heart of today's market. This is where the stability lies; as uninteresting as the market has been over the long run (about the last five years), the key dates have been of utmost importance. With any sizable increase in the number of new collectors, the key date market could move dramatically higher. This would have a major influence on the generic market as new collectors purchase common issues as well.

Most dealers are pointing to the next couple of shows to confirm their positive feelings of this market. The Arizona Coin Expo takes place in Phoenix on May 16th to the 18th. This first time show is expected to have 200 bourse tables; many dealers are anticipating a good show if the turnout is as heavy as predicted. The Long Beach Coin & Collectible Expo ends the month beginning on May 30th and runs through June 2nd. Over 550 bourse tables continue to make this one of the best dealer attended shows in the country.

Stack's latest sale of U.S. coins took place April 30th and May 1st. There was a long list of Washington coins and medals, many of which brought thousands of dollars. For complete prices realized, please contact Stack's in New York. Some of the U.S. coin highlights follow:

This Week's Market

MERCURY DIMES: Steady Bidding activity is the norm this week in the Mercury Dime chart. Full-Band issues remain on want lists at previous levels.

WALKING LIBERTY HALVES: Walkers continue to be a very popular issue with dealers and collectors. Bids are solid and early dates are wanted in quantity. Well, quantity in early dates means usually means that two or three buyers have to outbid each other when the right coin comes along.

DOLLARS: Dollars continue to set the pace for the rest of the market. Bidding activity is solid for 95% of all Mint State issues; some of the common dates have slipped very slightly. There are several dealers running buy/sell spreads for numerous Dollar issues. The totality of issues on these lists amounts to a major portion of Mint State Dollars. This makes for a ready market. Common date BU Ikes are very active as several buyers are trying to buy thousands of coins.

PROOF SETS AND MINT SETS: While the majority of Proof Sets remain somewhat active, several issues are only active at the new lower Bids. Mint Sets are steady at current posted Bids.

COMMEMORATIVES: This is the first time in several weeks that we don't have an abundance of plus signs in the MS65 & 66 columns of Silver Commems. However, there is still active Bidding on most issues this week; the same buyers are present, just not increasing their Bids as of yet. Gold Commems are generally steady with just a couple of small declines. There are several dealers making markets in Modern Commems; as such, the amount of activity appears to be on the rise.

TYPE: The Type market remains extremely positive as buyers compete for anything that is fresh on the market. Even some of the traveling inventory of bourse dealers will work when it is priced according to its true quality.

GOLD: The U.S. Gold market is gathering more and more strength. Sure, there are a few declines here and there. But, the overall picture is very positive. Supplies are not as readily available as they were last year. It is now becoming more obvious that the typical suppliers have increased their premiums, indicating further that supplies are not as deep.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen or raw (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen [illegible] at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market which already include consideration of [illegible] sight seen *may* be higher or lower than for a **sight unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high Bidder below [illegible] are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect [illegible] purchasing coins in a retail transaction you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins makes this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3A which contain BU and Proof Rolls.

AUCTIONS, AUCTIONS, AND MORE AUCTIONS
U.S. GOLD DEALERS FIND MARKET EXTREMELY ACTIVE

The Market in Depth

How many auctions are too many? I guess, the correct answer is, when buyers quit Bidding and the specific auction is not considered a success. Auction houses do not intend to slow down their schedules as long as they are as well-attended as they have become. It seems as if we have another major auction just about as often as we have a major show. Well, duhhhhh! I think we may have more major auctions than we have major shows lately.

Still to come in the month of May (carrying over to June), is the all-important Eliasberg Sale (Bowers & Merena in New York, May 20-22), the Irving Goodman Sale (Superior in Beverly Hills, May 27, 28), and the Long Beach Sale (Heritage, May 30-June 1, to include coins from the estate of the late Elliot Goldman). Starting the month of June (10, 11, & 12) will be a Stack's sale in New York. Just trying to keep up with all this auction material will be a major undertaking by the dealers who try to attend all the "big" events. The important players will execute this schedule with such efficiency that most people will not even notice that they have traveled to another city.

The current market for Mint State Gold coins is on the verge of a revival. This market appears so close to flat-out taking off that it is almost scary. For the last couple of months, we have not seen the heavy inventories of most issues that were prevalent for the last few years. We are not seeing the influx of sellers that had been so characteristic for so long. Most of the dealers who sell into the marketplace now, have just a few coins to sell.

At coin shows, marketmakers continually complain that their sources have dried up. Bid levels are inching higher, and more dealers are making competitive Bids in order to obtain whatever coins do happen onto the market. With the economy beginning to actually show some inflation-fueled weakness, retail buyers are becoming more interested in storing (that's collecting to us) gold and silver.

What does this mean to us? To our industry, it means we benefit because we have the opportunity to sell more coins; gold and silver. The more opportunities we have to sell gold and silver, the more chances we have of interesting potential collectors in buying coins.

This Week's Market

CENTS THRU HALVES: Despite the fact that there seem to be more minus signs this week than plus signs, BU rolls are very active among the marketmakers. Rolls seem to be trading even if discounts are required. Early Lincoln rolls are very popular, as are Roosevelt Dimes and Washington Quarters.

MERCURY DIMES: The Mercury Dime chart is consistent with the market for the last several months; strong Bidding activity for the early issues, especially the Full Band specimens.

WALKING LIBERTY HALVES: Very few changes in the Walker chart as dealers maintain their Bids at previous levels. Early Walker Bids are very prominently displayed by knowledgeable buyers. If an early issue becomes available, especially one of the mintmarked low-pop coins, a handful of buyers will appear.

DOLLARS: Bargain-hunters, in the Dollar market, usually go unfulfilled. If they manage to pick-off a coin here or there, it is usually just an occasional piece of good fortune. This area remains very encouraging as buyers maintain their positive stance with their strong Bids

PROOF SETS AND MINT SETS: Even though there are some Proof Set issues with minus signs this week, there is a flurry of trading activity in this area. The majority of issues are trading at current levels. In fact, Mint Sets are just as active with some of the early issues rising. Activity here is very persistent.

COMMEMORATIVES: Bidding activity is showing signs of consistency in the Silver Commem chart. There are strong buyers for most of the AU and MS60 issues at current Bids; there is a rash of Bidding activity for the MS65 & 66 issues with very little success being monitored, especially for the MS66 grade. A few dealers have focused their attention on the higher grades and as a result, have pushed Bids higher. Gold Commem Bids are very firm with several of the high grade issues moving higher. These charts look very healthy.

TYPE: The Type charts maintain previous levels with some increased Bidding (at higher levels) for specific issues. We see very little discounting for properly graded coins. When discounts are found, the coins usually move rather quickly.

GOLD: The U.S. Gold chart confirms a very active market. There is a multitude of Bid increases as dealers try to outbid each other for specific issues. There are numerous dealers in competition for nearly every issue listed below. The circ grades may not have as many competitive Bids as the Mint State grades, but there are buyers for every denomination. The majority of Mint State issues have a very deep following at this time.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen [illegible] or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they [illegible] at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market, which already include consideration of certification [illegible]. Bids in a **sight seen** [illegible] may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will [illegible] are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay [illegible] purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices, and "gem full steps" rolls, when available, bring higher prices. In the Jefferson series, some of the rolls in the late-50's tend to be dark—these bring lower prices. "gem full steps" rolls, when available, bring higher prices. In the Mercury series, "gem bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" rolls bring lower prices. Coins with "Wow" factor (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Washington quarters, Jefferson nickels

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3B which contain Modern Commemoratives and Modern Eagles (Gold and Silver).

COIN MARKET MAINTAINS CONSTANT FOCUS
ELIASBERG BIDDING BEGINS HOT AND HEAVY

The Market in Depth

While we constantly monitor the rare coin market, we are now seeing what we feel is the beginning of a new foundation for the future of our industry. Most of the dealers with whom we speak, feel that we have reached a very solid base of support at current Bid levels. Don't take this to mean that individual issues cannot go down; that is not the case. There will still be fluctuations, up and down, in most all markets. However, the majority of the series seem to have stabilized. There have been big discounts taken over the years, prices have moved substantially lower, and dealers are more comfortable with Bid levels than they have been for a very long time.

We have been viewing an ever-increasing number of dealers willing to place their Bids within 10% of each other, in support of the listed prices for numerous issues in every series. Up to about three months ago, we would monitor just one or two serious Bidders for a particular issue. Sure, there may have been ten dealers Bidding for a certain coin, but, their Bids may have been as far as 50% off.

Now, we are seeing as many as ten dealers within 10% to 15% of each other and the quantities wanted are usually tangible. Even when dealers try to buy certain issues at 10% back of Bid, if they really need the material, they will probably negotiate closer to Bid if they can fill the quantities they actually need. These signs are an indication that the market is healthy and shows promise for the future.

Superior Stamp and Coin is about to auction a unique 1943D Lincoln Cent. It is graded MS64-Brown, by the Numismatic Guaranty Corp. and is the only bronze 1943 cent, from any mint, to be graded Mint State. It was first authenticated as genuine in 1979 by the American Numismatic Association Certification Service. The coin was consigned by the family of a former mint employee. Being unique to the Denver Mint, in addition to being the only Mint State reported known, the coin is expected to bring a record price.

The Eliasberg Sale (Bowers and Merena) began with tremendous anticipation. The auction gallery for the first session was packed with enthusiastic bidders. The very first lot was a Massachusetts "NE" shilling; in VF, it brought a $63,800 final Bid from the floor; the Humbert $50 Slug (880 THOUS) was hammered down at $40,700; the 1860 Pikes Peak $20 Gold realized $90,200; and the 1879 Pattern Quintuple Stella (struck in Gold) brought a resounding $214,500.

We will report on the remainder of the sale next week with the 1913 Liberty Head Nickel, the 1873CC, no/arrows Dime, and other rarities. For a complete listing of prices realized, please contact Bowers and Merena, in New Hampshire.

This Week's Market

MERCURY DIMES: Mercs are as steady as an expert's trigger finger shooting bull s eyes. Marketmakers continue to post Bids at previous levels.

WALKING LIBERTY HALVES: Walkers are as steady as, oh, I already used that. Anyway, lots of dealers are looking for lots of coins. Everyone looks for different qualities in the coins they need, but one element is consistent: Eye-appeal.

DOLLARS: The Dollar charts remain very positive as several marketmakers try to purchase nearly all issues in MS63 and higher grades. Peace Dollars continue on many want lists and at the same time, are also available at just a little over the Ask prices (MS63 to MS65). Ike Dollars are extremely firm at the new levels reported. Several dealers are pushing this series higher.

PROOF SETS AND MINT SETS: These two charts don't reveal a lot of activity because the number of changes is not excessive. However, there is so much activity here that some dealers don't have time to do much else. This may be slightly exaggerated, but Proof and Mint Sets are very exciting at this time.

COMMEMORATIVES: Nothing different to report, but more plus signs in the Silver and Gold Commem columns (MS65 & 66). We are monitoring higher Bids from several dealers who are attempting to build their inventories in this area. They want eye-appealing coins with no major distractions. Modern Commems are receiving as much action as we can remember in quite some time. There are buyers and sellers; it all depends on your inventory needs. Buyers will pay over posted Bids to satisfy specific needs, while sellers will discount if need be to move slower moving material.

TYPE: Proof Type has scored some gains this week as dealers try to fill specific want lists. The unchanged issues are in demand at listed Bids. Mint State Type is mostly unchanged with the majority of issues wanted at listed Bid levels. There seems to be a lot of Bidding activity, but very little success unless you are willing to pay over posted Bids.

GOLD: There is very little new to report in the U.S. Gold market. Most issues are steady to higher; Bidding activity among dealers is consistently monitored. You will see a few circ issues edging lower, but coins are trading at these levels. Many of the Mint State issues are minimally higher as dealers persist in their search for additional material.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight seen** (graded or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen each day; they do not represent the prices at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market which already includes consideration of certification costs. Bids for **sight seen** coins may be higher or lower than for a **sight unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be obliged to record Bids that are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium when buying coins in a retail transaction, you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 - Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 - Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 - Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65 - Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 - Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

ELIASBERG SALE PRODUCES FIRST MILLION DOLLAR COIN

1913 NICKEL—$1,485,000

The Market in Depth

If this were the "nightly news" and we were going to show the day's national and international significant events, and the story line was the Eliasberg Sale, we would probably need a minimum of 5 hours (without commercials) just to show the most important highlights. This sale reads like a "what's what", in numismatics. Of course, it should since Louis E. Eliasberg, Sr., formed the greatest coin collection ever; from Half-Cents to $20 Gold pieces, it was complete.

This portion of the collection featured Colonials, Patterns, Territorials, and Half-Cents through Dimes. The consignor, Richard A. Eliasberg (son of Louis E. Eliasberg, Sr.), was the "custodian" of the coins in this sale. Richard felt it was time to give others their chance to be custodians of these rarities. By the time the third session ended, elated buyers had pushed the prices realized to over $11,500,000.

It just doesn't get any more exciting than the action presented by Auctions by Bowers and Merena, Inc. as the Eliasberg Sale took place. It seems as if whenever there is a major auction, records will fall. However, the Eliasberg Sale produced record after record; when the gavel came down for the final lot, history had been rewritten. With such a sale, it is difficult to mention all the highlights; please contact Bowers and Merena for a complete listing of prices realized.

The 1913 Liberty Head Nickel was the obvious star of the sale. It opened at $700,000 and quickly passed the million dollar mark as the audience broke into applause. When the two final bidders had reached their limits, Jay Parrino had the "nickel" and the record—$1,485,000. Many numismatists feel that the unique 1873CC no/arrows Dime should have been the star of this sale. Since it is the only one known, it is rarer. Now, a new owner, and only one-of-a-kind. It opened bidding at $300,000 and moved rather quickly to its final price of $550,000.

The 1894S Barber Dime is another rarity with a long history of renown. Many bidders came to this sale with the hopes of purchasing this coin, but not many came with a pocketbook big enough to compete with Harvey Stack who made the final bid of $451,000. Mr. Stack was representing one of his customers.

This Week's Market

CENTS THRU HALVES: The roll chart continues to be very active among dealers who trade in this area. Most buyers are filling specific needs for "sets" so they can retail them to customers. Many sets are available at price levels that a whole myriad of retail buyers can afford. As the retail buyer increases his involvement in numismatics, the amount of his purchases will also increase.

MERCURY DIMES: Several plus signs have crept into the Mercury dime chart as buyers need some issues and are willing to pay just a little more to get them. This area remains very steady at reported Bids.

WALKING LIBERTY HALVES: The Walker chart may not look active but there are many buyers who will pay the posted Bids for just about all the coins listed. Some issues may not appear very active, but it is a matter of knowing which dealers have the strongest needs.

DOLLARS: Although the Dollar charts are not covered with plus signs this week, we are finding numerous dealers offering to buy most Mint State issues at current levels. Many marketmakers have been concentrating on auctions recently and report that they will get back to their usual activities as Long Beach week begins. Ike Dollars continue to be Bid very enthusiastically. Several more plus signs can be seen in this chart.

PROOF SETS AND MINT SETS: Activity in these two charts is not very obvious because there is a lack of plus signs (and minuses too). Let me assure you that there are numerous dealers trying to buy most of the issues listed in the two charts and they will pay the listed Bids. Some miscellaneous lots are offered for discounts, but you have to buy the issues you don't need also.

COMMEMORATIVES: The Silver Commem chart contains a multitude of increases in the MS66 column. The majority of these issues are steady as dealers look for accurately graded specimens. The lower grades (XF to MS65) are very stable at present Bids. Gold Commems remain actively Bid with just a few issues down slightly.

TYPE: Type coins continue on the straight and narrow. Buyers need coins and sellers usually want more than the current Bids for properly graded coins. We are seeing a few advances here and there, yet, there is not a full-scale jump in overall prices.

GOLD: Bidding activity remains steady to higher in the U.S. Gold market. Several Mint State issues are higher as some dealers intensify their search. We do see support for all Mint State Gold as supplies are not as readily available as they had been in the recent past.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen** (graded or "raw" uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen on the day the report is compiled. Prices reported are the values at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already includes consideration of certification costs. Bids for **sight seen** coins may be higher or lower than for a **sight unseen** certified coin due to current market conditions. The CDN may not change Bid/Ask due to the bidding or lack of the lead holder. Let us emphasize that we report Bids which are higher or Asks which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions, who should expect to pay a premium above Ask prices when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

$100,000 EVERY 4 HOURS & 45 MINUTES!

THAT'S HOW MUCH MONEY THE *KING OF CASH* SPENT IN 1995! DID *YOU* GET YOUR SHARE?

Spectrum Numismatics International, the buyers of the 1913 Liberty Nickel and the King of Siam Proof Set, spent $42,347,978 purchasing rare coins in 1995.

As you can see, Spectrum has a huge appetite for rare coins. There were 251 working days in 1995. If you figure a work day at 8 hours, that means, Spectrum spent $100,000 every 4 hours and 45 minutes! Spectrum needs to buy *your* coins and is willing to pay *absolute top dollar.*

IF YOU WANT TO GET THE MOST MONEY FOR YOUR COINS... GO DIRECTLY TO THE SOURCE.

The amazing thing about the $42,347,978 worth of rare coins that Spectrum purchased in 1995, is that only $1,693,919 were purchased directly from the public. If you want to sell coins to the *ultimate buyer*, if you want to get as much money as possible for your coins, then shouldn't you go directly to the source? Shouldn't you go directly to the ***King of Cash?***

WHAT KIND OF COINS CAN YOU SELL TO THE KING OF CASH?

Spectrum paid $962,500 for the 1913 Liberty Nickel. And they paid $1,815,000 for the King of Siam Proof Set. But the facts are that 91% of Spectrum's purchases are for coins less than $5,000. And 18% of Spectrum's purchases are for coins less than $200.

While Spectrum is the nation's top dollar buyer of ultra rare United States coins, Spectrum is also the major buyer for moderately priced United States numismatic coins. Here's a short list of some of the items that ***King of Cash*** is currently interested in buying: Original BU bags of Morgan/Peace dollars, BU rolls of Walking Liberty 50C and Mercury dimes, ALL BU gold coins, pre-1916 Type coins in all grades, pre-1943 Proof coins and sets, and especially **COMPLETE COLLECTIONS!**

HOW TO CASH IN

If you've decided that you want to trade all or some of your coins for cash, you should know that it's really easy to do business with Spectrum. If you have rare coins for sale and you want to sell them for as much money as possible, then all you have to do is pick up the phone any weekday between 9:00 am and 5:00 pm California time and call the Spectrum cash line 714-955-1250 *collect*. Ask for Greg or Thad and tell them you have coins for sale. **TELL THEM YOU WANT TO TALK TO THE *KING OF CASH*.**

LONG BEACH EXPO REPORTS STEADY WHOLESALE MARKET

1943D LINCOLN CENT HIGHLIGHTS SUPERIOR AUCTION

The Market in Depth

We have rarely seen so many dealers agree on anything, but after attending the Long Beach Expo and visiting with hundreds of dealers, we can report that, unanimously, they feel that the condition of the coin market is **STEADY**. There are Bid buyers for nearly every series; all grades are represented on want lists. The little bit of discounting that we found, was usually followed by additional sales to other dealers at the current Bids or higher.

The show itself, displayed marked improvement; most of the dealers felt that the atmosphere was more conducive to successful business dealings. We did not hear one complaint from dealers (this is remarkable in itself). The Heritage Auctions were also quite successful as the Bullet Sale produced a price realized of over half a million dollars and the Signature Sale realized nearly $3 million. Highlights reported from Heritage include: a 1916D Mercury Dime, MS64 sold at $5,060; an 1826 Bust Half, in MS66, brought $9,020; and a 1919S Walker, in MS65, realized $9,625. Among the other highlights are: (see inset above).

DENOMINATION	GRADE	PRICE
1857 Half Cent	MS65 Red	$4,730
1914D Lincoln Cent	MS64 Red	$2,640
1866 w/Rays Shield Nickel	Pr65	$2,860
1844 Seated Dime	MS63	$12,650
1871 Seated Dollar	Pr65	$9,900
1895 Morgan Dollar	Pr63	$16,500
1898 $5 Gold	Pr64	$11,000

Last week's Superior Sale recorded a world record price for a Lincoln Cent. The only known 1943D Bronze Lincoln from the Denver Mint, sold for $82,500; this is more than double that paid for any other Lincoln Cent. This is also the only known Mint State 1943 Bronze Cent, graded MS64 Brown by NGC. Other highlights from this sale include:

DENOMINATION	GRADE	PRICE
1918/17D Buff Nickel	AU50	$6,050
1848O Seated Half	MS64	$2,860
1917D Rev Walker	MS64	$3,740
1916 Gold McKinley	MS66	$3,190
1893 Isabella	Pr66	$22,000
1922 Grant w/Star Half	MS66	$12,925

This Week's Market

MERCURY DIMES: The Mercury Dime chart shows a very steady market. Buyers continue to offer Bid levels for nearly all issues, especially the Full-Band ones.

WALKING LIBERTY HALVES: Dealers continue to pursue Walkers at present Bid levels. The earlier issues, when encountered, will command over current Bid levels if properly graded.

DOLLARS: Better-date Dollars were about the most sought after area of the recent Long Beach Coin Show. Numerous dealers reported that they had want lists for specific dates and they were willing to pay at least Bid for the issues that met their grading criteria. MS65 & 66 Peace Dollars remain very strong at posted Bids.

PROOF SETS AND MINT SETS: Mint Sets are extremely active at current levels; some issues moved higher as dealers try to fill specific needs. The most popular issues are from 1947 to 1989. The Proof Set chart is also active, but there are some minuses reported as discounts occur.

COMMEMORATIVES: Typical activity in the Silver Commem market continues to be monitored as the MS65 & 66 columns show the greatest strength. Buyers will pay the listed Bids, or even higher for coins they need. In the lower grades, most of the issues are wanted at posted Bids. Gold Commems are stable at current Bid levels; the most sought after grades are MS65 & 66. Modern Commems feature lots of offers to buy and sell by the marketmakers; nearly all of the reported issues are active.

TYPE: The Type charts are generally steady as most Bidding activity occurs at posted Bids. This does not mean that dealers can buy at these levels; sometimes they can, and sometimes they have to pay over to acquire the coins they need. The coins with extra eye-appeal will usually command over current levels.

GOLD: The U.S. Gold chart continues to reflect cautious optimism by dealers. There are several plus signs for specific issues and an array of activity, at current levels, for many of the other issues. Many of the marketmakers who trade in the European market, feel that higher premiums will help maintain a shorter supply; thus, the gold market can remain steady at listed Bid levels. Results from the Long Beach Show seem to bear this out.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect prices at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market which already include consideration of certification costs. Bids for a **sight seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium over Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3A which contain BU and Proof Rolls.

The P C I Capsule . . .

☑ $7.50 PER COIN

☑ 6-DAY SERVICE

Tells why more people are turning to P C I

❑ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

❑ PCI recognizes that all coins are not "generic." We grade, authenticate, verify and list attributes for errors and varities such as 5, 5+, & 6 steps for Jefferson nickels, DM (deep mirror), DMPL (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute PQ (premium quality) to those coins that qualify.

❑ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.)

❑ PCI offers the most affordable rates of any "third party grading service" — and we provide the fastest turnaround time of any grading service . . . for the applicable fee of $7.50 per coin, plus postage and insurance.

❑ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customers, and our service is backed by our guarantees!

❑ As a special bonus — PCI provides a FREE storage box when twenty (20) coins are submitted. ($5 charge for storage box on orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service . . . guaranteed!!

MARKET QUIETLY ABSORBS AUCTION PURCHASES
IKES MOVE HIGHER IN ACTIVE TRADING

The Market in Depth

Although the market appears to have quieted down the last week, it is more appropriate to say that dealers are using this time to wait as their customers absorb the new purchases from the many auctions and shows that were just completed. With over $17,500,000 spent on auction lots and who knows how many more millions spent at shows and retail shops in the last six weeks, it should be no surprise that the market has slowed; but, has it?

Many dealers report that they still have want lists with some very healthy needs. We are seeing lots of Bidding activity on the teletype systems and quantities wanted are usually relative to the rarity of the issues. For example, the rare issues with infrequent availability, one or two coins make the market strong. Where there are hundreds of issues available for the right price, such as Proof or Mint Sets, the cumulative demand is for hundreds of sets. Most dealers are maintaining their Bids at current levels. This is why the market may not seem as active as it has been over the last couple of months.

What may be more interesting is the fact that we are turning to the summer months. This is normally the time of the year that many dealers slow down because their customers are planning vacations and don't spend as much as they do during other periods of the year. As of yet, we have not seen any real slowdown. Dealers are reporting consistent business and their needs have not diminished. If activity can be maintained during the summer months, we should have a better-than-average last quarter of the year.

Over the last several weeks, we have seen Ike Dollars move dramatically higher. The most common BU issues are now worth at least $30 a roll. The main buyer of the Ike series, is also the one pushing the common issues; when they started Bidding for them, they needed over two thousand rolls. They are still looking for over 1500 rolls. When this marketmaker began Bidding, common rolls were only Bid at $24 per roll; at $30 per roll, this is an increase of 25%. Several other issues have climbed during this period, with the 1971P increasing nearly 17% and the 1971D over 28%. The complete Eisenhower set is now Bid at $95.

This Week's Market

CENTS THRU HALVES: The BU Roll market is very active with buyers and sellers usually getting together within the Bid/Ask levels. Occasionally, we will monitor issues that are discounted with no buyers in sight. This is the case with several of the Proof-only rolls from 1982 to 1991 (Roosevelt Dimes and Washington Quarters).

MERCURY DIMES: Mercury Dimes are solidly Bid this week. The Full-Band specimens continue to receive the most active Bidding; there are several increases for the 65FB issues.

WALKING LIBERTY HALVES: Walkers are consistent with previous weeks. Dealers are trying to buy nearly all specimens at listed Bids.

DOLLARS: You will see lots of Bid increases in the Dollar chart this week as dealers are vying for circulated Morgan issues. Dealers are looking for specific dates in VG to AU and will pay in excess of previous Bids depending on the grade and the quantity available. Mint State Morgan and Peace Dollars remain quite solid at posted Bids.

PROOF SETS AND MINT SETS: Even though we are finding a few discounts in the Proof and Mint Set charts, these two areas are very strong overall. There are lots of dealers who need large quantities of specific dates and they are willing to pay the current levels. However, if you want to sell them the issues they need at discounts, they will be more than happy to buy those also.

COMMEMORATIVES: The Silver Commem market continues steady with most of the changes taking place in the MS65 & 66 column. The MS65 issues are mostly steady with a few up and a few down. In the MS66 column, most of the changes are to the upside. Gold Commems are very strong at current Bid levels as several dealers try to find accurately graded coins at their Bids.

TYPE: The Type market continues to reveal strength as marketmakers maintain previous Bid levels. In some cases, they will pay over these levels and post higher Bids; in other cases, they may be willing to pay more, but they keep their higher Bids silent until coins become available. There is no use in revealing higher demands until actual coins are purchasable.

GOLD: The Mint State Gold chart continues to affirm a positive market. There are some sporadic plus signs in MS60 to 65 grades, however, it is more important to note that the majority of issues are steady at the reported Bids as they are listed. The confidence level has been maintained despite the fact that Gold bullion has fallen lately.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally. They are the maximum at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market which already include consideration of certification cost. Bids for **sight seen** coins may be higher or lower than for a **sight unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bid list, but will be strongly influenced by those which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above these when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCG5, NCI, ANAC5, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices; in the Jefferson series, some of the rolls in the late 40's tend to be dark; these bring lower prices; generally, full steps; rolls which have been [illegible] bands; rolls are worth more than listed prices, particularly the pre-1941 issues. Washington rolls, dull or "put together" bring lower prices; [illegible] (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mint [illegible] & Proof [illegible]

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 - Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 - Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 - Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 - Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 - Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3B which contains Modern Commemoratives and Modern Eagles (Gold and Silver).

Celebrating Over 50 Years of Friendly Service to Collectors

Sell your coins to LITTLETON!

David Sundman, President
ANA LM #4463, PNG #510

Chief Buyer Jim Reardon and Buyer Butch Caswell

We buy single pieces to entire estate collections, AG-3 to MS-65, from early U.S. to modern coins.

As one of the nation's largest coin retailers, Littleton is always in need of a wide range of coins to satisfy our customers. Each year, we spend millions of dollars for U.S. coins in grades of AG-3 to MS-65, from early U.S. coins to modern issues.

Over 100,000 collector customers bought more than 3 million coins from us last year!

If you have coins to sell, from individual pieces to large estate collections, why not consider the buying power of our more than 100,000 customers from all 50 states. They represent a vast variety of collecting interests – from AG coins to early Bust and Seated coinage, 19th Century proofs and great American rarities.

Our needs are extensive, our buy prices are highly competitive, and we welcome the opportunity to purchase your coins.

- **Fair and honest appraisals & offers**
- **Fast confirmation & settlement**
- **Finders fees & joint arrangements**

Wherever you're located, you can sell your coins to Littleton quickly, easily and conveniently – contact us by phone, fax, mail or teletype today!

COIN MARKET PROVIDES STABLE ATMOSPHERE

STACK'S SALE CONTINUES AUCTION TREND

The Market in Depth

Even though we are headed into the summer months, you know what the summer months are don't you? That dreaded time of the year when coins take a backseat to vacations and other recreational forms of entertainment. Coins may not be as important to some collectors, but the ones most dealers are catering to at this time, still have active want lists. These collectors are not putting their coins in the backseat, they are looking to add more coins to their collections before prices go up. At least, that's what some dealers feel is about to happen.

The current coin market appears to be quite intense at today's Bid levels. We are seeing numerous dealers with their want lists in full swing. Granted, this may be somewhat irregular at this time of the year, but who's going to close down their business when they have customers willing to buy coins right now. "Summer doldrums? No thank you; we'll just skip it this year."

Stack's latest sale realized over $2.2 million; granted, much of this sale was for Ancient and Foreign material, but the overall result is most positive. Indications are that collectors are buying more coins of late and the market is showing encouraging signs. Most of the Bidding activity takes place at Bid levels, or just a little higher depending on the needs of the specific dealer. Where potential buyers are bargain-hunting, that is, looking for coins they don't necessarily need, Bids are still close to listed prices. Most dealers report that they have varied and extensive want lists.

One of the highlights of the Stack's sale was the 1870S Seated Dollar. To show you how rare this coin is, it had been tooled to remove graffiti; it is a VF coin and realized $66,000. Other rarities consisted of an 1879 Flowing Hair Stella in Ch. Brilliant Proof, at $46,200; a 1794 Flowing Hair Dollar in VF, $30,800; and a 1916/16 Buffalo Nickel in Ch. AU, $19,800. Please contact Stack's in New York, for a complete list of prices realized. More highlights follow:

DENOMINATION	GRADE	PRICE REALIZED
1856 Flying Eagle Cent	Gem Proof	$15,950
1815/2 Bust Half	BU	$9,350
1796 Small Eagle Dollar	AU	$7,700
1873 $10 Gold	Ch. XF	$10,450
1857O $20 Gold	Ch. AU	$8,800

This Week's Market

MERCURY DIMES: There are several changes in the MS65FB column of Mercury Dimes. Buyers are pushing just a little harder to obtain the specific issues they need. The rest of the chart is steady at listed Bid levels.

WALKING LIBERTY HALVES: Very few changes are registered in the Walker chart as most buyers stick with their previous Bids. Nearly every issue is firm at these levels and the better issues are as elusive as always; especially if they are solid grade coins with no weaknesses.

DOLLARS: Several Bidders maintain their competitive Bids for the majority of Morgan and Peace Dollars in MS63 and higher. In fact, we don't see a lot of discounted offers to sell of accurately graded Dollars. Most sellers will explore the active Bids before they will attempt to discount coins they really may not need to sell at "under Bid levels."

PROOF SETS AND MINT SETS: These two charts are very active at current levels. You will see some issues that have declined slightly this week, but they are moving at these new prices. The majority of issues are in demand at listed Bids; some have advanced moderately.

COMMEMORATIVES: Mint State Silver Commems are mostly steady as the principal buyers are steadfast in their pursuit of these issues. Several of the circulated Commems are undergoing some adjustments as new information is utilized; this is a result of splitting the XF and AU issues into two columns, which we initiated a few months back. Gold Commems remain positive with a few scattered advances in the MS64 and higher grades. Modern Commems have not been quite as active this past couple of weeks as they were in previous months.

TYPE: The Type charts reveal very little new information this week. Hidden among the unchanged issues is the fact that nearly all MS63 and better and PR60 and better issues are in demand at current Bids. The number of Bidders has increased over the last several weeks, thus, helping to maintain the posted Bids. Most potential buyers are in the same ballpark relative to each other at the current Bids.

GOLD: U.S. Gold continues very steady; in fact, several Mint State issues are even higher this week. Several dealers remain very active in their efforts to obtain various issues, and are willing to pay more than previous Bids to get them.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily represent the level at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market which already include consideration of certification cost. Bids for sight seen coins may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be promptly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask prices purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore they are all usually high grades.

MS60 - Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 - Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 - Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 - Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 - Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3A which contain BU and Proof Rolls.

The P C I Capsule . . .

☑ $7.50 PER COIN

☑ 6-DAY SERVICE

Tells why more people are turning to P C I

❑ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

❑ PCI recognizes that all coins are not "generic." We grade, authenticate, verify and list attributes for errors and varities such as 5, 5+, & 6 steps for Jefferson nickels, DM (deep mirror), DMPL (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute PQ (premium quality) to those coins that qualify.

❑ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.)

❑ PCI offers the most affordable rates of any "third party grading service" — and we provide the fastest turnaround time of any grading service . . . for the applicable fee of $7.50 per coin, plus postage and insurance.

❑ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customers, and our service is backed by our guarantees!

❑ As a special bonus — PCI provides a FREE storage box when twenty (20) coins are submitted. ($5 charge for storage box on orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service . . . guaranteed!!

MORE AUCTIONS COVER JUNE CALENDAR
RETAIL SALES INCREASE AS RESULT OF AUCTION ACTIVITY

The Market in Depth

Auctions continue to generate interest, both from within the particular sale and at coin shops all over the country. Auctions support the notion that there are many buyers for various coins. Customers who attempt to buy coins out of auctions, but wind up coming in second to the high bidder are still showing the marketplace that they have an interest in purchasing rare coins. This is most important to the majority of dealers who do wholesale business because they know that if they contact enough retail dealers, they should be able to sell them auction-quality coins for their customers. The bidders who come up short, are telling us there is depth in this market. We just have to match the "right" customers with the "right" coins.

At most of the auctions lately, there has been a noticeable increase in the number of non-dealers in attendance. This interest, whether it is a rekindling of a former collector, or a brand new buyer, is indicating that the market is spreading out to engulf buyers from all walks of life. Bear in mind that a couple of major auction houses, that normally do a very small percentage of their total volume in numismatics, are now conducting some major sales. Butterfield & Butterfield has increased their coin auctions over the last few years to where they now have a regular schedule of sales on their yearly calendar.

Sotheby's has auctioned coins for many years, but has not been as well known in numismatic circles. However, they appear inclined toward changing that philosophy as they have just completed The James Haldan Collection Sale and are preparing another sale in December of this year. The recent sale attracted a whole host of buyers; many not accustomed to the normal numismatic arena. The final prices realized was over $1.6 million.

Sotheby's reported that over 60% of the lots brought prices significantly higher than pre-sale estimates; this was due to very active bidding in the auction room. An 1895 Morgan Dollar brought $34,100 in Brilliant Proof. An 1851C Gold Dollar, in MS65, realized $28,050; an 1861D Gold Dollar, in BU, brought $38,500; while an 1896, Proof66, $5 Gold piece sold for $33,000. For a complete list of prices realized, please contact Sotheby's in New York.

This Week's Market

CENTS THRU HALVES: The BU roll chart is finding lots of activity of late. Most of the marketmakers attempt to fill specific demand by offering current Bids for rolls they need. Early Lincoln Cents, Jefferson Nickels, Roosevelt Dimes, early Washington Quarters, and Franklin Halves appear to be very stable at posted Bids. The only noticeable weakness is in the late-date Proof-only rolls of Lincolns, Roosevelts, and Washingtons.

MERCURY DIMES: Mercury Dime enthusiasts maintain their Bids for the majority of issues, especially in the FB columns. We did find a few discounted sells of early MS65 issues with support at just under previous levels.

WALKING LIBERTY HALVES: Buyers for the Walker series continue to demand quality for their money. They want properly graded coins for the Bids they are offering. Bid levels are status quo this week.

DOLLARS: We are seeing lots of Bidding activity on the teletype systems for Morgan and Peace Dollars. Many of the better to rare date issues are advancing due to higher Bidding pressure. There does not seem to be enough of these coins to satisfy today's demand.

PROOF SETS AND MINT SETS: Proof and Mint Sets are rallying as more buyers are offering competitive prices for sets they need. The last few weeks have seen a few declines here and there, but the market has been strong. You will still see some minor downward adjustments, but these two charts are extremely active overall.

COMMEMORATIVES: The Silver and Gold Commem market are very solid this week. After the minor adjustments in the XF and AU Silver Commem columns last week, we have discovered some new, higher Bids this week. While you don't see a lot of increases in the higher grade Silver Commems, Bidding is consistent at present Bids. The Gold Commem chart has several increases as buyers edge this area higher.

TYPE: There are just a few changes in the Type charts this week. The changes are mostly increases as buyers push specific issues in an effort to obtain these elusive coins. The rest of Type coinage is steady at posted Bids.

GOLD: Judging by the looks of the U.S. Gold chart, one might think that the gold market is rather quiet. However, this is certainly not the case. The majority of Mint State issues are in demand at current Bid levels. The few minus signs that you see, are just slight downward adjustments; coins are trading at listed Bids. In the area of circulated gold, there are some declines relative to the weaker bullion price; this is especially so for the 10s and 20s.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight seen [illegible] or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen at each [illegible] at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market, which already include consideration of [illegible]. Bids for **sight seen** coins may be higher or lower than for a **sight unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustment of the high bidder, but will [illegible] are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions. [illegible] purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter.*

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise lesser coins are worth less than listed prices; in the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices. "gem full step" rolls—but not "full bands" rolls are worth more than listed prices, particularly the pre-1941 issues. Washington rolls—full or split steps—are worth more than listed prices (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MORGAN & PEACE DOLLAR & modern sections.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 - Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 - Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 - Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 - Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 - Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3B which contain Modern Commemoratives and Modern Eagles (Gold and Silver).

The Louis Eliasberg Estate Met The King of Cash...

That's When The King Of Cash Spent $2,448,630 At The Eliasberg Sale

How Much Has The King Of Cash Spent With You This Year?

Talk is cheap, but the facts are at the May Eliasberg sale the King of Cash, Spectrum Numismatics, was the number one buyer. The sale grossed a total of $11,598,089. Spectrum purchases of $2,448,630 represented 21.1% of the entire sale!

And remember, the King of Cash buys everything! At the Eliasberg sale, Spectrum's purchases ranged from an 1887-S Liberty Seated dime for $1,210 to the 1796 No Pole Half Cent for $506,000 (a new record price for a U.S. copper coin.) The King of Cash is interested in all of your coins. And the facts show that the King of Cash is the rare coin market's number one buyer. So far this year the King of Cash has spent $21,660,864. That's $180,507.20 every single day or $100,000 every 4 hours & 25 minutes!

And even though the King of Cash is the number one buyer at nearly every major auction, 85.2% of the King of Cash purchaes are coins valued at $500 or less. The King of Cash wants and needs your coins... all of them! Here's a small list of the coins Spectrum Numismatics desperately needs:

- BU Morgan Dollars in roll and bag quantities
- BU Peace Dollars in roll and bag quantities
- Uncirculated Walking Liberty Halves – all dates and all grades
- Uncirculated Mercury Dimes – all dates and all grades
- All pre-1956 Proof Sets
- All pre-1950 U.S. Proof coins
- Silver and Gold Commemoratives – all issues and all grades
- U.S. Gold coins – all dates and all grades
- All Proof Gold coins
- All rare U.S. coins, especially $4 Stella, 1907 High Reliefs, $50 Pan-Pac Octagonal and Rounds, 1907 Wire Edge and Rolled Edge $10 Indians, 1933 $10 Indians

IT'S EASY TO DO BUSINESS WITH THE KING OF CASH

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XXXIV No. 27 July 5, 1996 *. . .a Friday morning report on the Coin Market*

DEPTH OF BIDDING ACTIVITY QUITE IMPRESSIVE
BID BUYERS ABOUND IN MOST SERIES

The Market in Depth

If you could only see the Bidding activity that we monitor each week, you would be thoroughly impressed with the number of potential buyers for properly graded coins in most series. Even though we are headed into the so-called slow part of the year, that dreaded "summer doldrums," we are not seeing any indication that the market is becoming soft. In fact, a look through the charts shows the usual number of Bid increases as dealers try to fill specific needs for their customers.

We have monitored more visible buyers for Dollars, Type, Walkers, Mercs, Commems, and Gold than at any time in recent memory. There isn't just one or two buyers for specific dates in grade; the number of buyers is as many as ten deep in various grades of MS63 (Proof also) and higher. Further, the buyers are generally within 10%-15% of each other. In many cases, the buyers want multiples of the same issue. So, we laugh in the face of "summer doldrums." Ha! What "summer doldrums"? Let's just continue to do business as usual.

What has helped the market sustain this quiet momentum is the fact that the collector is showing ongoing interest with active want lists. We see new want lists every day from various sources. This ongoing interest is exacerbated by the number of important auctions that seem to occur as often as one is completed. The latest Bowers and Merena sale took place on June 24th and 25th, in New York. The Herbert D. Spencer Collection realized over $1.5 million in a very active three-session sale.

DENOMINATION	GRADE	PRICE REALIZED
1793 Wreath Cent S-9	VF25	$3,190
1856 Flying Eagle Cent	XF40	$4,840
1857 3¢ Silver	MS65	$3,740
1796 Half Dime V1	XF40	$2,750
1890 Seated Quarter	MS67	$3,080
1919 Walker	MS64	$3,080
1879CC Morgan Dollar	MS64	$4,400
1927S $20 Saint	MS63	$16,500

Highlights from this sale included a 1916D Mercury Dime, in MS64FB, which brought $7,810; a 1912 Proof67 Barber Quarter that realized $4,840; an 1861S Seated Half, in MS64, found a happy buyer at $4,180; and an 1855 TypeII, $1 Gold piece, sold for $25,300. Please contact Bowers and Merena for a complete list of prices realized. Other highlights above:

This Week's Market

MERCURY DIMES: What can we say about Mercury Dimes that we have not already said every week for the last several months? This area is quite steady; buyers will pay Bid and they especially want Full-Band issues.

WALKING LIBERTY HALVES: Redundancy is the key word here. The Walker market is the same as it has been for many months. Early issues with mintmarks are the most sought after coins and only so many collectors can be satisfied with a small supply available at today's levels.

DOLLARS: As we mentioned in the "Market in Depth" column, the Bidding activity that we monitor each week is quite impressive, especially for Silver Dollars. There are many visible buyers for properly graded Dollars and they will take quantities. This is true of both Morgan and Peace Dollars. It is also apparent that potential buyers are trying to outbid each other for the better dates in the higher grades. The number of want lists that can be filled from the available supplies is truly limited.

PROOF SETS AND MINT SETS: Despite the declines we see in the Proof Set chart this week, many dealers are trading very heavily in this area. Mint Sets are also quite stable at posted Bid levels. The number of buyers for both series is better than is typical this time of year.

COMMEMORATIVES: Gold and Silver Commems are as solid as they have been in a very long while. Most buyers maintain Bids at current levels; there is no leadership willing to raise Bids across the boards as of yet, but this area looks healthy. We are not seeing the heavy discounts that were the norm back a few months ago. Then again, a major percentage of the risk has already been squeezed out of most issues. Several dealers feel that the only direction for Commems to go is up.

TYPE: A look at the Type charts seems to indicate that very little has occurred this past week. That may or may not be true, but what you cannot see behind the scenes is that nearly every issue has active Bidders at the posted Bid levels. The only areas that don't have active Bids are the issues that are so rare that Bidding doesn't do any good anyway.

GOLD: Mint State U.S. Gold remains one of the more active areas of numismatics. The main suppliers of this market continue to Bid at current levels; there does not seem to be too much supply. The weaker bullion price results in slightly lower circ prices for 10s and 20s.

A weekly comparison of certified coin Bid levels relative to CDN sight-seen Bid levels (as 100%) sampled from 10 U.S. coin series (2 grades each; avg. is for the 20 ratios). All %'s relative to CDN as 100%. Data from latest issue of CDN Monthly Supplement, & Certified Coin Dealer Newsletter (sight-unseen Bids). Refer to CCDN for specific certified Bid levels. ANACS Bids & green label PCI Bids are for slabbed coins only. INS bids are for blue certs. Use this Indicator to survey the entire market, not just for a single issue; apply these ratios to CDN Bid to obtain a trading range for comparisons. For more details on the Indicator and a complete listing of coins, refer to the July 1988 Monthly Supplement.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight seen. The Grades may be average or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks one notices. Prices reported are sight seen, at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market which already include consideration of certified coins. Bids for **sight seen** may be higher or lower than for **a sight unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the Bid/Ask adjustments of the high Bidder, but will be willing to recommend Bids that are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above. And when purchasing coins in a retail transaction you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC please refer to *the Certified Coin Dealer newsletter.*

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60 - Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 - Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 - Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 - Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 - Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contain BU and Proof Rolls.

The P C I Capsule . . .

☑ $7.50 PER COIN

☑ 6-DAY SERVICE

Tells why more people are turning to P C I

❑ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

❑ PCI recognizes that all coins are not "generic." We grade, authenticate, verify and list attributes for errors and varities such as 5, 5+, & 6 steps for Jefferson nickels, DM (deep mirror), DMPL (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute PQ (premium quality) to those coins that qualify.

❑ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.)

❑ PCI offers the most affordable rates of any "third party grading service" — and we provide the fastest turnaround time of any grading service . . . for the applicable fee of $7.50 per coin, plus postage and insurance.

❑ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customers, and our service is backed by our guarantees!

❑ As a special bonus — PCI provides a FREE storage box when twenty (20) coins are submitted. ($5 charge for storage box on orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service . . . guaranteed!!

MARKET CHARTS STEADY COURSE TO HIGHER LEVELS
PLUS SIGNS SCATTERED THROUGHOUT MOST SERIES

The Market in Depth

We have been reporting higher levels for several weeks now and it doesn't look as if there is any let up in sight. There seem to be a sufficient number of buyers in just about every series that justifies this positive conclusion. This week's Quarterly I seems to verify that the majority of Bids for dated issues are stronger as collectors make their requests known to their favorite dealers.

There are more plus signs for Seated Half Dimes and Seated Dimes than we have ever seen since we began the Quarterly editions in 1992. Even the Seated Quarters are showing Bid increases. Lest you be wary that the advances are minor adjustments, rest assured that some of the jumps are as much as 60%. These major advances usually come from dealers who are looking for specific issues and they have been looking for a very long time. In some cases, the specialty dealers are aware that these issues are more valuable than their respective Bids would indicate, but they would rather keep this information privy.

While working with the Quarterly Newsletter, we have also found a substantial number of increases for specific Seated Halves and Seated Dollars; these will be reflected in the August Quarterly II as long as the market continues its current trend. If you follow the weekly Type charts, you can see that various common issues have advanced the past several weeks. This tends to put price pressure on the slightly better dates, as well.

Rarcoa and David Akers are conducting a joint auction, on July 19th, in Chicago. This sale is being held in conjunction with the Greater Chicago Coin Expo (July 17-20). Included in this sale is a complete set of $10 Indians, in MS64 and higher, with a majority of them MS65 and better. These are to be auctioned as singles. The 1907 Wire Edge grades MS66 and the 1933 is a lovely MS64. Included will be an 1864 and an 1866 $2 1/2 Gold piece, both grading Proof 66. Also you will find a variety of Copper and Silver Type coins that are sure to inspire spirited bidding.

This Week's Market

CENTS THRU HALVES: Over the last couple of weeks, there has been considerable Bidding activity for BU rolls of Lincoln Cents. Serious buyers are willing to pay current Bid prices. Early issues (1940-1964) of Washington Quarters are actively Bid, as well. The entire Franklin series is active as several buyers are trying to fill orders at present Bid levels.

MERCURY DIMES: The Mercury Dime chart is virtually unchanged as buyers continue to offer Bid for most of the issues they need. MS64 & 65 Full-Band issues are the most sought after.

WALKING LIBERTY HALVES: There are a few plus signs in the Walker chart this week, however, the majority of issues are stable at previous Bids. Most buyers in this area are looking for fully struck specimens.

DOLLARS: Ike Dollars continue on many want lists; dealers are trying to fill retail orders. Nearly every date is wanted at Bid or higher. One major player still needs 100s of BU rolls at $30 per.

PROOF SETS AND MINT SETS: There has been lots of activity in the Proof and Mint Set charts this past week. Despite the "long weekend", there were several dealers offering current Bid levels for any number of sets. In several cases, they should have been able to fill their orders as there were some sellers also.

COMMEMORATIVES: This is probably the most Bidding activity we have seen in a couple of years for Silver Commems. Granted, you will not see Bids rising tremendously, but the volume of Bids is inspiring. Further, where there are no increases, there are still several buyers willing to pay the current levels; this is typical in MS63 and higher grades.

TYPE: All indications point toward higher levels for the Type markct; all except for plus signs. Numerous dealers are trying to purchase all sorts of Type coins, in just about all grades; they just require specimens that are pleasing to the eye. If demand gets any stronger, it would appear that prices would have to move higher.

GOLD: Marketmakers remain steadfast in their pursuit of U.S. Gold, especially Mint State issues. Bids for most Mint State issues are steady to higher, with just a couple of the more common issues down slightly. Gold bullion is listed at $381 per ounce this week and circ specimens remain active.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the exact at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market which already include consideration of cert fication costs. B[illegible] **sight seen** may be higher or lower than for a **sight unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by those which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise defective rolls are worth [illegible] the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices—gem, full steps rolls (when available) bring higher prices. In the Roosevelt series, "red bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or puff together—bring lower prices. Coin-set rolls—[illegible] (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Morgan & Peace rolls are [illegible]

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

ANA AND AUCTIONS TO FAN THE FLAMES OF AUGUST
COIN MARKET CONTINUES SUMMER ADVANCE

The Market in Depth

With the ANA just one month away, many dealers are feeling pretty good about the coin business. It has been much better than they might have expected and from the dealers that we have spoken with over the last couple of weeks, there is business to be done. In fact, some companies have revealed that they have sold some rather expensive coins, some as high as $100,000 and more. In general, the rarities that are priced in the $20,000 to $30,000 range have a good chance of moving if they are priced according to their true quality.

Several dealers are having a field day selling Eliasberg coins; especially the ones priced under $10,000. Collectors want known rarities with a pedigree and these seem to fit into their budgets. The Eliasberg sale continues to have a strong influence on the entire market. It has gained more notoriety for the coin business than any single event in a very long time. It has supplied the impetus the coin market needed during the summer months.

Considering the fact that the Summer Olympics will begin in just a couple of days, we continue to see lots of activity for Olympic Coins. The coin dealers in Atlanta have the potential to sell tons of different items to a myriad of new people who could be introduced to the world of coin collecting. For many dealers, this will be a once in a lifetime opportunity. Almost everywhere you look, you see Olympic Coin advertising.

Lest you misconstrue our earlier comments about expensive coins being easy sellers, this is not commonplace in the market. It is still easier to sell coins under $2,000 than over. There are more potential buyers for coins under $2,000, as the number of collectors that can afford high-priced coins dwindles as the values rise. Many marketmakers post their buy prices on a regular basis for coins they need; in most of the issues listed in the Greysheet, there are as many as ten potential buyers for individual coins within 10%-15% of each other. This continues to be the thickest market that we can recall in a very long time.

ANA week begins August 11th, in Denver. Dealers who travel the show circuit are certainly looking forward to this week-long event. Many dealers save some of their best material for this annual collector marathon. There are seminars, exhibits, club meetings, sight-seeing tours and auctions. Auctions begin with a Heritage Bullet sale on August 9th, then the Bowers and Merena Sale on August 12th, and another Heritage Bullet sale the 13th, and finally the Heritage Signature Sale on the 14th to the 17th. This two week period should be an avalanche of Denver activity.

This Week's Market

MERCURY DIMES: There is very little to report in the Mercury Dime chart this week as the usual buyers remain steady at previous Bids. Most serious buyers are conscious of the fact that higher Bids just means higher Asks with little actual trading taking place.

WALKING LIBERTY HALVES: The Walker chart indicates a few minor downward adjustments as buyers lower Bids just slightly on these specific issues. The balance of this chart is quite stable at present Bid levels.

DOLLARS: Morgan and Peace Dollars continue to receive as much or more Bidding activity as there is in any other series. Much of the Bids are at current levels so there are not a lot of changes. Most of this activity occurs in the MS63 and better grades. You will see several plus signs in the MS65 column of Peace Dollars. Buyers for Ike and Anthony Dollars still pursue these issues at previous posted Bid levels.

PROOF SETS AND MINT SETS: There is a massive amount of Bidding activity in the Proof and Mint Set charts. There are occasional plus signs, but most of the buying takes place at previously listed Bid levels. Many issues are wanted in large quantities.

COMMEMORATIVES: Plus signs are scattered throughout the Silver Commem chart this week; most of the increases occur in the MS65 & 66 columns, although other grades are higher as well. This series is very popular at this time, especially after having been so dormant for such a very long time. Gold Commems are also strong with several plus signs in the MS65 & 66 columns. In some series, higher Bids relate to higher Asks; in the Commem series, higher Bids usually create sales at the new levels. Modern Commems are very active; still, there are numerous declines as sellers are willing to discount various issues. The amount of the decline is quite minimal, however. Several dealers are looking for an increase in retail sales as the Olympic Games begin.

TYPE: "Solid" is the best description for the Type market as buyers maintain their busy pace. Copper is showing some enthusiastic increases as one main buyer tries to fill specific needs. Most potential sellers of Copper do not discount properly graded coins.

GOLD: Mint State U.S. Gold continues to appear on most want lists; those dealers who need specific issues are willing to pay the listed Bids or higher depending on how badly they want an item. There are a couple of declines where supplies might just be a little ahead of demand. Circulated Gold is showing some weaker price levels as more sellers are active and trying to decrease their inventories.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight seen**. These coins may be "certified" or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for **a sight seen** coin may be higher or lower than for **a sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades

MS60 - Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 - Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 - Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal Attractive toning permissible.

MS65 - Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 - Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides

*Please Note: This page alternates weekly with Page 3A which contain BU and Proof Rolls

The P C I Capsule . . .

☑ $7.50 PER COIN

☑ 6-DAY SERVICE

Tells why more people are turning to P C I

- ❑ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ❑ PCI recognizes that all coins are not "generic." We grade, authenticate, verify and list attributes for errors and varities such as 5, 5+, & 6 steps for Jefferson nickels, DM (deep mirror), DMPL (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute PQ (premium quality) to those coins that qualify.
- ❑ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.)
- ❑ PCI offers the most affordable rates of any "third party grading service" — and we provide the fastest turnaround time of any grading service . . . for the applicable fee of $7.50 per coin, plus postage and insurance.
- ❑ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customers, and our service is backed by our guarantees!
- ❑ As a special bonus — PCI provides a FREE storage box when twenty (20) coins are submitted. ($5 charge for storage box on orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service . . . guaranteed!!

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XXXIV No. 30 July 26, 1996 *. . .a Friday morning report on the Coin Market*

BIDS ARE FIRM AS DEALERS PURSUE VARIOUS NEEDS

MAJOR ACCUMULATION OF KEY DATES CHANGES HANDS

The Market in Depth

The overall market remains very specific in nature as buyers report the needs of their customers. However, if you could only see the total amassing of buying activity that we see on a weekly basis, you would be quite impressed. The aggregate total of potential buys for the week covers virtually the whole gambit of the Greysheet. Granted, there are some declines here and there; but most material is capable of trading hands at current levels if the coins are properly graded. More explicitly, coins will trade if priced according to their actual grade.

Occasionally, when coins go unsold at current Bid levels, they must be discounted in order to sell. Thus, prices will eventually fall. At this time, most coins that are discounted, are able to find new homes as long as they are not damaged or over-graded. Government issue sets (Proof, Mint, Modern Commem) that are missing some of the original packaging, will sometimes be discounted. Some of the major marketmakers in these areas maintain an inventory of extra packaging just for this purpose.

Years of hard work recently paid off for one of the country's largest coin retailers. Littleton Coin Co. has just recently completed the purchase of an extensive accumulation of key-date coins and sets. Included in the purchase are Lincolns, Liberty Nickels, Mercury Dimes, Barber Dimes, Quarters, and Halves, and Standing Liberty Quarters. There were 45 complete sets of Barber Dimes (no 1894S) and 24 complete sets of Barber Halves.

"The New York Subway Hoard," as this accumulation is being called, was purchased from a long-time coin dealer from Brooklyn; he acquired the coins over a period of time from a relative who was also a former employee of the transit agency. These coins were used to pay for train and New York City Transit Authority bus fares in the 1940s to 1960s.

Being a major retailer, Littleton is quite capable of moving all of this merchandise to their customers, where they will go off the market for a long period of time. It also allows them to supply customers without effecting the wholesale price of these coins. In many cases, a large supply of coins can cause Bid levels to fall as demand is oversupplied. Without the ability to properly market an accumulation of this magnitude, prices could fall. Needless to say, Littleton is quite ecstatic about this acquisition. Some of the key-dates included in this deal and the quantities are listed herein.

This Week's Market

CENTS THRU HALVES: The BU roll market is receiving as much activity as we have seen in a long while. Not all of the changes this week are to the upside but it looks as if several buyers will take lots of different rolls for their want lists. When discounts are offered, there are many issues, for which buyers are found immediately.

MERCURY DIMES: There are several changes this week in the Mercury Dime chart Numerous issues are rising as buying pressure forces potential sellers to make realistic decisions. Most of the changes are for "difficult to locate" issues.

WALKING LIBERTY HALVES: The Walker chart is quite busy this week. There are some plus signs in the early issues and some declines in the later issues. The balance of this series stands solid.

DOLLARS: Except for common date Morgan Dollars in MS63, this series continues to show strength. Nearly every issue, Morgan and Peace, has active buyers at listed Bids, especially in the MS64 and 65 columns. Further, we are seeing a lot more Bidding for specific circulated coins than we have in the past.

PROOF SETS AND MINT SETS: Wow! These two charts are extremely busy as several buyers make their needs known. In several cases, the buyers will accept 100-200 of the specific issue. This is the case for many of the Proof and Mint Sets.

COMMEMORATIVES: Silver Commems remain a very strong series as the previous Bids are still receiving support. This, of course, does not make for many Bid increases, although the overall market is steady. Also, there are enough plus signs to report positive activity. Gold Commems are still accepting strong Bidding support from marketmakers. Some issues are a little higher due to buying pressure.

TYPE: The collector market appears to be receiving more attention because we are seeing more active Bids, at higher levels, for some of the more difficult "to locate" coins. Further, circulated Type is very stable as buyers try to fill specific needs. Many of the lower priced coins are advancing due to this buying pressure. In the MS and Proof charts, the majority, if not all issues, are quite healthy at reported Bids.

GOLD: While the U.S. Gold chart may not appear all that positive this week, the size of the individual decline is quite minimal. There is a lot more Bidding activity taking place than you can see, since supporting Bids are not revealed by the use of a symbol like the plus and minus signs are. If we did indicate supporting Bids, you would see that nearly every issue without a plus or minus sign is active at the present levels.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally they do not necessarily represent the prices at which any particular dealer might offer to buy or sell that coin Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series (spotted or other minor mint marks are noted), the Jefferson series, some of the rolls in the late [illegible]s tend to be dark; these bring lower prices. Gem full steps rolls (other varieties being lower), such as the Mercury series, Walking Liberty bands' rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls (due to "pot together" drug buyers' coins) (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the Coins

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3B which contain Modern Commemoratives and Modern Eagles (Gold and Silver).

Single copy price $4.00 Vol. XXXIV No. 31 August 2, 1996 *...a Friday morning report on the Coin Market*

MARKET RECEIVES ACTIVE BIDDING ACROSS MOST SERIES
TWO IMPORTANT AUCTIONS FEATURED IN AUGUST

The Market in Depth

As dealers get ready for the ANA in August (Denver, August 11-18), the market remains very actively Bid. We are seeing a multitude of buyers trying to purchase coins in nearly every series. In fact, they **are** attempting to buy coins in **every** series. In a majority of cases, dealers will pay the current Bid levels; there are some instances when the dealer puts his higher Bids on the line and reveals just how much he is willing to pay.

The problem here, however, is that when he reveals his higher Bid, the potential seller uses his Bid against him and offers to sell coins to other dealers at an even higher level. So, the "high buyer", the dealer actually doing the work of posting Bids on the teletype systems, does not get to benefit from the increase in Bid levels. All he has done is created an increase in the price he will eventually have to charge his customer when he finally gets a coin. This is why many dealers have want lists without prices.

Speaking of the Denver ANA, there are two fine auctions during the ANA festivities. The first one occurs on August 12th. It is the Rarities Sale and it will be conducted by Auctions by Bowers and Merena, Inc. It is limited to just 500 lots, but there is no limit to the quality and rarity of the coins within this sale. Some of the more important lots are listed below:

Denomination	Grade	Denomination	Grade
1793 Wreath Cent S-9	MS64Bn	1913S Barber Quarter	MS65
1856 Flying Eagle Cent	Pr 65	1895O Barber Half	MS66
1855 3¢ Silver	Pr 66	1858 Seated Dollar	Pr 64
1924D Buffalo Nickel	MS65	1895 Morgan Dollar	Pr 63
1924S Buffalo Nickel	MS65	1879 Flowing Hair Stella	Pr 61
1818/5 Bust Quarter	MS64	1901O/S $5 Gold	MS66
1821 Bust Quarter	Pr 64	1924D $20 Saint	MS64

The second major sale is the 1996 ANA Sale, conducted by Heritage Numismatic Auctions, Inc. It takes place on August 14th to the 17th. This rather lengthy sale has six sessions and over 4000 lots. There should be something for everybody in here. From Patterns to Currency, to Errors, to World Coins, to certified coins, Type coins, Gold (Proof and Mint State), Commems, Dollars, rare date material, there **is** something for you. If you can't find something here, you don't really collect. We will feature highlights next week.

Please contact the respective Auction houses for an auction catalogue and a complete list of prices realized when the sales are completed.

This Week's Market

MERCURY DIMES: The majority of active Bids in the Mercury Dime chart come from the MS64 & 65 Full-Band columns. Almost everything from 1916 to 1945 will sell at current levels if the coin is accurately graded.

WALKING LIBERTY HALVES: Dealers are persistent in their quest for accurately graded Walkers. They will take almost anything in MS60 and higher from 1916 to 1940, they are also actively seeking 1941 to '47, issues in MS64 and 65.

DOLLARS: The Dollar market remains totally active in all grades. You will see some declines in various issues, however, buyers are eager at these new levels. Better-date coins are difficult to pry loose from potential sellers; they usually want well over Bid to part with their nice coins.

PROOF SETS AND MINT SETS: The amount of Bidding activity in Proof and Mint Sets is about as dense as we can remember seeing in several years. There are lots of buyers for nearly every set (both Proof and Mint). Most buyers are looking for 100-200 of various issues. On the other hand, there are also sellers of many issues at the present Bid levels. If the market is working correctly, these buyers and sellers should be getting together.

COMMEMORATIVES: More encouraging signs can be found this week in the Silver Commem chart as buyers are maintaining their Bids at present levels. MS65 & 66 issues are still the most actively Bid, while the lower grades are faring almost as well. We are not seeing a lot of discounted offers to sell at posted Bid levels. Gold Commems are quite active as buyers increase Bids for several of the MS65 & 66 issues. The Modern Commems are extremely active as marketmakers are trying to fill orders. Sellers seem to be trying to move material just as quickly while this area is easy to sell. We have even received phone calls at home wanting to know where to buy these Modern Olympic Coins.

TYPE: Type coins continue to head the list of customer needs. Dealers are willing to pay over current levels for eye-appeal coins, but they generally do not wish to advertise these needs because the potential seller will just increase his asking price. This defeats the purpose of advertising the Bid and only serves to increase the CDN posted price without actually satisfying the individual need.

GOLD: The Mint State Gold chart is quite steady at reported Bid levels. You may not be able to see a lot of Bid changes, but dealers are trying to purchase coins for customers and most are willing to pay the posted Bids. Nonetheless, there are enough plus signs to encourage even the most dismal of pessimists.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally by the dealers necessary to determine the price at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market which already include consideration of certification costs. Bids for **sight seen** coins may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder. Let will be automatically understood by buyers which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions. You should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

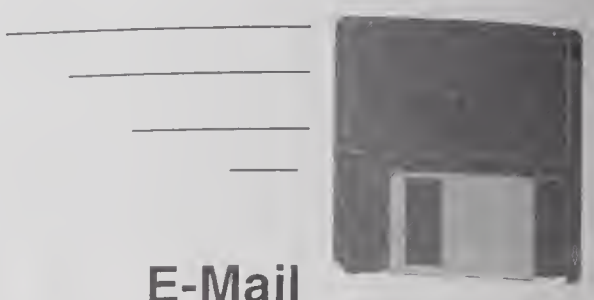
MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.



*Please Note: This page alternates weekly with Page 3A which contain BU and Proof Rolls.

The P C I Capsule . . .

☑ $7.50 PER COIN

☑ 6-DAY SERVICE

Tells why more people are turning to P C I

❑ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

❑ PCI recognizes that all coins are not "generic." We grade, authenticate, verify and list attributes for errors and varities such as 5, 5+, & 6 steps for Jefferson nickels, DM (deep mirror), DMPL (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute PQ (premium quality) to those coins that qualify.

❑ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.)

❑ PCI offers the most affordable rates of any "third party grading service" — and we provide the fastest turnaround time of any grading service . . . for the applicable fee of $7.50 per coin, plus postage and insurance.

❑ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customers, and our service is backed by our guarantees!

❑ As a special bonus — PCI provides a FREE storage box when twenty (20) coins are submitted. ($5 charge for storage box on orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service . . . guaranteed!!

DEALERS HEAD TO DENVER PRE-ANA MARKET STEADY AS SUMMER WINDS DOWN

The Market in Depth

For most show dealers, this week begins a long 10 day stretch in Denver. The Pre-ANA show begins on Thursday, August 8th. Along with these two shows (ANA next week), there are a couple of Heritage Bullet Sales and two major auctions. If you cannot find what you are looking for in Denver, it must be excessively rare. On the other hand, it may be there, but the potential seller may want more than you are willing to pay. This seems to be the major objection that buyers must overcome. There are plenty of want lists out there with lots of coins on them. However, the buyers want to pay current Bid levels and the sellers want previous market prices (spelled—much higher prices).

This is the time of the year that dealers begin to get more serious and their customers return from vacations. The market has remained fairly steady throughout the summer months and most dealers feel this is quite positive for the balance of the year. Lots of dealers feel that the next three months are typically their best of the year. If this holds true, then a few areas are set to be rather active; that is, if the coins are available.

Denomination	Grade
1856 Flying Eagle Cent	MS65
1914D Lincoln Cent	MS64 R&B
1868 2¢	Pr 67 Red
1914S Buffalo Nickel	MS68
1925S Buffalo Nickel	MS65
1878CC Seated Dime	MS67
1815 Bust Quarter	MS63
1916 S.L. Quarter	MS62
1918/7S S.L. Quarter	MS65
1920S Walker	MS65
1795 Flowing Hair Dollar	MS64
1879 Flowing Hair Stella	Pr 64
1877 $20 Liberty	Pr 64
1929 $20 Saint	MS64

A couple of areas worth mentioning are Type coins and Dollars; both Morgan and Peace. Dealers have been lamenting all along that they have not been able to locate enough accurately graded material in these two areas. If this trend changes at all, then dealers can possibly satisfy some of their customer want lists, which in turn, usually develops broadened needs.

As we reported last week, there are two major auctions in Denver coinciding with the ANA. Last week, in this section, we mentioned some of the highlights from the Rarities Sale (Auctions by Bowers and Merena, Inc.). This week we have a very fine list of highlights from the Heritage Sale taking place during ANA week. (The ANA will run from August 12th to the 17th.) The following lots are just some of the highlights from this over 4000 lot sale: (see inset).

This Week's Market

CENTS THRU HALVES: The roll market appears to be fairly active at present levels There is healthy trading on a multitude of issues (nearly all denominations) and most sales take place at, or near the Bids. The one area of softness occurs in the late-date Proof-only issues where some dates go unsold.

MERCURY DIMES: Typical Bidding activity is the order of the week for the Mercury Dime series. The strongest dealer Bidding is for Full-Band issues in all of MS65 and the early issues of MS64.

WALKING LIBERTY HALVES: The Walker chart may not be covered with plus signs, but nearly every issue in MS63 and higher has an active Bidder at the listed Bids. We don t see a lot of coins changing hands, especially the issues with limited availability.

DOLLARS: Dollar buyers are everywhere. Some try to buy at discounts, while others offer more competitive Bids. The discounted buyers usually get offered coins that the higher buyers "pass on." There is robust trading activity for the more common coins, however, the better date issues appear few and far between. Buyers will have to pay more for the better dates and competition, along with this limited availability breeds more competition.

PROOF SETS AND MINT SETS: You will find a few more declines this week than last for these two charts. However, activity appears to be just as lively, as several marketmakers need specific quantities (usually large quantities) of several issues. The declining issues are usually in large lots where the more desirable issues sell rather quickly.

COMMEMORATIVES: Silver Commem buyers are persistent for most issues in MS63 and higher. There are several Bid increases, but most sellers are still waiting for higher prices. Potential sellers of high-end specimens usually demand well over current posted Bid levels. Gold Commems are solid at present Bids (especially for MS63 and higher) as a few dealers try real hard to find various coins for their customers. We do not see high availability for most of these issues.

TYPE: As we monitor the teletypes and other pricing data, we find that most dealers who specialize in Type coins, are willing to pay the current Bids for the coins they need. Most buyers will not reveal their highest buy prices, but specify that they will pay "at least Bid." Compared to the amount of competitive Bids that we see, there are very few accurately graded coins being offered to the buyers.

GOLD: The overall U.S. Gold market (Mint State) is holding quite steady as several dealers maintain their recent Bidding posture. A look at the charts indicates a few increases and just about as many declines; nothing drastic either way, just a healthy amount of trading activity taking place. Gold bullion was higher this past week, which helps sustain the circulated gold market.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily represent the values at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for **sight seen** coins may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by these values are higher or Sells which are lower than current Bid/Ask levels. tNVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above any Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter.*

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth [illegible] the Jefferson series, some of the rolls in the late 50's tend to be dark — these bring lower prices. "gem, full steps" rolls, when available, bring higher prices. In the Mercury series, "full bands" rolls are worth more than listed prices — particularly the pre-1941 issues. Washington rolls — full or "split" bring lower prices. Coins that were [illegible] (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Washington singles are in the [illegible]

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3B which contain Modern Commemoratives and Modern Eagles (Gold and Silver).

for over a quarter of a century, collectors needing confidential direction and reliable advice have successfully turned to

Julian M. Leidman
Professional Numismatist & Consultant

With complete confidentiality, I will custom tailor my services to fit your numismatic needs. I can assist in the ***formation of your collection***; with more than 30 years as a professional, I can locate the U.S. coins or currency you need. I can provide you with ***confidential advice***, just as I have for collectors, other dealers, attorneys and corporations. I can help you find those hard-to-get coins and develop your collection. I can act as your ***personal representative*** for any numismatic transaction; take advantage of my decades of experience for a maximum commission of 10%. I can also assist in the ***orderly disposition*** of your holdings, to make sure that you receive top dollar in the marketplace. Between buying and selling, I can ***appraise*** your collection or individual pieces. You know your needs best; contact me for ***expert*** assistance.

Single copy price $4.00 Vol. XXXIV No. 33 August 16, 1996 *. . .a Friday morning report on the Coin Market*

COLLECTOR MARKET SHOULD BE ACTIVE AT ANA

INITIAL REPORTS FROM PRE-ANA POSITIVE

The Market in Depth

Through good times and bad times, the annual summer ANA has always been a good collector show. There have been times when the wholesale market has not been all that active going into the ANA convention, but collector coins seem to sell as ANA attracts thousands of numismatists from all over the country. Since this ANA is located in Denver, just up the road from ANA headquarters in Colorado Springs, an even better crowd might be anticipated than when "conventioning" at some other locations. At the very least, this ANA should cost substantially less than many others where the entourage has to travel so much farther.

Collector coins have been the focus of many retail dealers for the last two to three years. These dealers have been concentrating on improving their client base along with other dealers who have been trying to begin a client base. From our standpoint, while the number of wholesale dealers seems to have dwindled in recent years (many dealers having gone to work for other major coin companies), it appears that the number of new collectors has increased substantially. This is measured by the fact that modern sets have been selling on a consistent basis, both wholesale and retail.

Now, this may not help improve most dealers' status in life, but for every new customer that is developed, there is a chance that others will become interested around him/her. As each new collector is broadening their interest, their collecting habits eventually become more expensive. While this interest is heightened, the cost of their collecting habits increases and more expensive coins are taken off the market; this serves to deplete the overall supplies and cause values to rise. Hooray for the collector! May you all have hundreds of new clients who wish to build sets of. . . . . anything.

It looks as if the Denver extravaganza is starting off rather sound. There were a good number of local dealers in attendance along with the usual traveling show dealers and action looks promising for this ten-day spectacular. The various dealers we spoke with have extensive want lists and they are enjoying some success. Yet, sellers are hampering some further successes as they wait for even higher offers before they sell certain coins. Many of these specific needs may be satisfied at the auctions, although, it is obvious that not everybody can be the highest bidder. With the results of this week's upcoming activity, we will have lots of new information to report. After we digest this week's results, we should have a good indication of what to expect the next several months.

This Week's Market

MERCURY DIMES: This has been a typical week for the Mercury Dime series. There are few advances, but a whole lot of active Bids for MS64 & 65 Full-Band issues. Several dealers are looking for the better-date issues; generally early dates with mintmarks.

WALKING LIBERTY HALVES: Walkers maintain their steady course. Everything from MS63 and higher grades appears on want lists somewhere. The more competitive dealers are willing to offer current Bid levels.

DOLLARS: While you will see a few declines for the most common date Morgans in MS64 and 65, this is by no means indicative of the whole market. Apart from these few declines, the rest of this series is quite sturdy. In fact, there are several dealers in competition for any of the better dates that might come on the market. If some of these dates continue to rise, we could see some of the rare issues changing hands. Peace Dollars are quite steady in MS63 and higher grades. There are several increases for better-dates. The Ike Dollars remain as active as they have been for the last few months. Several dealers are in need of most issues at today's posted Bids.

PROOF SETS AND MINT SETS: Proof and Mint Sets remain very stalwart at present levels. Numerous dealers are trying to purchase several hundred of the issues they need individually. When you combine the needs of all the dealers together, you find that nearly every issue is in demand.

COMMEMORATIVES: The Silver Commem chart looks like it has for the last several weeks. There are a few increases, a few declines, and the majority of issues remain unchanged; there are active buyers waiting on the sidelines for supplies to hit the marketplace at these posted Bids. MS65 & 66 specimens are the most sought after at this time. Gold Commems continue to be pursued, especially in grades MS63 and higher. Modern Commems are still active, but some of the more common issues are showing some signs of weakness.

TYPE: Except for just a handful of issues, the Type chart is showing near-term promise. Nearly everything that does not indicate a plus or minus this week, is in demand at the posted Bid levels. This is an area that should be very active at the ANA and the auctions.

GOLD: The Mint State Gold market looks to be fairly active as dealers attend the Denver shows. Some dealers have indicated that they have an increase in orders and hope to fill these needs this week. This week's chart shows several Bid increases in the MS63 and 64 grades. Nearly every issue in MS60 and higher has active Bidders at present levels.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides

*Please Note: This page alternates weekly with Page 3A which contain BU and Proof Rolls.

DENVER ANA—ROCKY MOUNTAIN HOSPITALITY

HERITAGE SIGNATURE SALE CRANKS OUT OVER $10,000,000

The Market in Depth

It's been a very long time since we have seen so many dealers boast of having such a good show. Yet, the Denver ANA provided just such an event. Dealers from all over the country, some spending as many as ten days in Denver (including both the Pre-ANA and ANA), were just beaming with the results of their numismatic achievements. They were so elated that some were heard to be singing an old time favorite "Oh, Donna." How this song applied to the Denver shows, we do not know, but the fact that they were singing is the important detail.

Dealers were buying coins, they were selling coins; they were making money. Yes, they were actually making money. This was quite a change for some of them as they have spent a quiet summer contemplating what the rest of the year might bring. Dealers suddenly feel recharged and expect the rest of the year to be absorbing. Which coins seem to be the most active? It's a very long list. Gold, Type, Dollars, key-date collector coins, and coins with eye-appeal were all easy sellers if the coins were priced relative to their actual grades. Of course, if the potential seller was trying to get the last dollar his price was probably too high and those coins went back home with him. However, to many dealers' surprise, their ask prices were actually creating sales. It almost seemed easy to sell coins.

The Heritage Signature Sale, with its over 4000 lots, realized just over $10 million. This sale had something for everybody. An 1880 Flowing Hair Stella, in Proof 64, brought $101,200; a 1776 Continental Dollar, in MS62, sold for $16,500; a 1907 High Relief, in MS63, realized $11,550; and an 1852 $5 Liberty, changed hands at $14,850 for the MS64 piece. Other highlights follow; please contact Heritage in Dallas, for a complete list of Prices Realized.

1856 Flying Eagle	MS65	$16,500
1918/17D Buff Nic	MS62	$29,700
1796 Bust Dime	MS62	$10,450
1918/17S S.L. 25¢	MS65	$57,750
1795 Flowing Hair $	MS62	$16,500

Bowers and Merena hosted a one day event, called the Rarities Sale. There were 500 lots that brought $2,733,375. One of the more important lots was the 1787 New Jersey copper (with initials WM beneath the horse's head), grading VF25; it sold for $143,000. A very rare 1878S Seated Half Dollar reported at $24,200, in MS60; an 1856 Flying Eagle changed hands at $17,600, in Proof 65; a Chapman Proof 1921 Morgan Dollar brought $31,900, in Proof 64, but was expected to grade higher when resubmitted. Also, a 1915S Pan Pac Round $50 in MS64, found a new home at $70,950. As you might imagine, there were many more highlights. Please contact Bowers and Merena for a complete listing of Prices Realized.

This Week's Market

CENTS THRU HALVES: The BU roll charts may seem to indicate a lack of activity, but the truth is that this overall market is quite stable. Most buyers are willing to pay the posted Bids for items they need and we have monitored very little discounting the last couple of weeks.

MERCURY DIMES: Bidding activity for Mercury Dimes remains at the same level as it has been for the last several months. However, there were lots of coins sold at the auctions that we will look at to see if adjustments need to be made.

WALKING LIBERTY HALVES: Walkers were very active at the Denver ANA. Several dealers were looking for the difficult issues and were willing to pay for nice coins.

DOLLARS: The Dollar market is as strong as any series. Better-date, rare-date, low-pop coins are very easy sellers. There are not enough to satisfy all the demand. Dealers report that collectors are being very aggressive in their efforts to locate these hard-to-find issues. One specific reported sale was an 1896O Morgan in MS65: it brought $80,000 to a Dollar specialist's customer who then turned down an additional sale of upwards of $100,000.

PROOF SETS AND MINT SETS: Because most active marketmakers were away at the ANA, Bidding activity slowed somewhat and most of the changes this week are slightly lower. However, this is still a strong market with lots of support for the unchanged issues.

COMMEMORATIVES: The Silver Commem market appears to be a little soft at this time. There were more sellers than buyers at these shows and the auctions also revealed some lower prices. However, there is still some sporadic support for individual issues, thus holding prices at previous levels. Gold Commems are about the same way as the leading marketmakers have retreated somewhat.

TYPE: While we do not show a massive amount of Bid increases this week, it sure seems as if the Type market is being strongly supported. If the coin is accurately graded, you can sell it at current levels. If the coin has any kind of problem, or, is unattractive, it may require a discount.

GOLD: The Gold market in Denver was extremely active; this can be said for nearly all grades, in all denominations. If coins were priced "right," they would sell. The marketmakers had no trouble moving material. Many of them had standing orders they were trying to fill, so most of the coins bought were to be taken home. Numerous changes in the chart this week are upward (just a few slight declines) as buyers were willing to pay for what they needed.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be [illegible] or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the level at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a sight seen "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

SILVER COMMEMORATIVES

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter.*

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series "spotted or otherwise material toned rolls are worth less than [illegible] the Jefferson series, some of the rolls in the late-50's tend to be dark—these bring lower prices; gem, full deep" rolls, which command [illegible] "Bankers' Rolls" are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" brin[illegible] (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

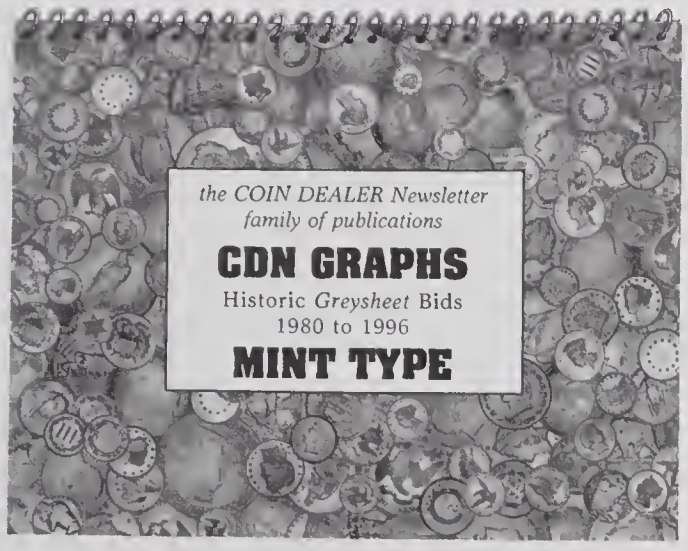
MS60 - Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 - Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 - Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 - Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 - Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.



Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3B which contain Modern Commemoratives and Modern Eagles (Gold and Silver).

2 New CDN Graph Books to the Rescue!

Looking for new ways to sell coins in today's market? What better way, than to show your clients pricing history? Our new **Mint Type Graph Book** charts at least 100 issues that are Bid lower today than at any time in the last 15 years! On the flip side there are 28 issues in our New **Proof Type Graph Book** that are bid higher today than at any time in the last decade and a half.

All CDN Graph Books Contain:

- All time Highs and Lows
- Current CDN Bid
- Brief Background of Every Coin
- Designer, Size & Weight, Mintmark, Composition
- Photo of each Coin
- Weekly chart plots for over 15 years

Not only can you show this valuable information to your clients, you can include it in your newsletters, sales brochures, and advertisements.

The P C I Capsule . . .

☑ $7.50 PER COIN

☑ 6-DAY SERVICE

Tells why more people are turning to P C I

❑ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

❑ PCI recognizes that all coins are not "generic." We grade, authenticate, verify and list attributes for errors and varities such as 5, 5+, & 6 steps for Jefferson nickels, DM (deep mirror), DMPL (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute PQ (premium quality) to those coins that qualify.

❑ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.)

❑ PCI offers the most affordable rates of any "third party grading service" — and we provide the fastest turnaround time of any grading service . . . for the applicable fee of $7.50 per coin, plus postage and insurance.

❑ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customers, and our service is backed by our guarantees!

❑ As a special bonus — PCI provides a FREE storage box when twenty (20) coins are submitted. ($5 charge for storage box on orders containing less than 20.)

After our 6th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service . . . guaranteed!!

COIN MARKET PRODUCES HEAD OF STEAM AS LONG BEACH APPROACHES

DEALERS STILL ABUZZ OVER ANA RESULTS

The Market in Depth

As if a whole new coin market has reappeared, dealers are exclaiming their jubilation over the recent ANA and the condition of the rekindled coin market. Numerous dealers spoke about today's market at the ANA. Two major dealers were in virtual agreement when they revealed their opinions of today's coin market. We will share them with you. "The market of the '90s is a rebirth of the '70s market; it is collector driver." These were not the only dealers who reported feeling this trend.

Individually, many dealers may not see much progress in the marketplace. Their single business may not be thriving as a small entity, but rest assured, the industry, as a whole, is making major strides toward expansion. Expansion? How can the industry be expanding while individual businesses are barely staying afloat? There is a very simple explanation. If you look at just the major auctions of this year and measure the results, you can see that millions of dollars have been spent on rare coins, just in these sales. Dealers alone cannot afford to inventory this additional volume; they have to be selling coins to previous customers and new clients alike.

The dealers that are selling the most coins, are being the most aggressive. At today's Bid levels, most dealers feel that buying properly graded coins, at prices commensurate with their grades, can be an outstanding value for years to come. Collectors buying coins at today's levels are more sophisticated; they have done their preparatory work and educated themselves. They know of the potential that lies ahead. However, for the dealer to join in this expanding market, he must be willing to be aggressive.

We see this at every show. Aggressive dealers have good shows. Dealers who sit back and wait for business to come to them, have poor shows because the aggressive dealers take away their business. There is a big difference between "obnoxious" aggressive and "determined" aggressive. Obnoxious will offend more customers than not; while determined is persistent without being overbearing. Presenting a rational sales pitch with purposeful goals will usually make a sale much easier to "stomach" than one in which the potential buyer has to hold his nose as if he were taking a spoonful of castor oil or cod liver oil.

Speaking as we were previously of auctions, Stack's has a public auction coming up on September 10th and 11th, in New York City. There are numerous highlights including an 1858 Seated Dollar, in Ch. Brilliant Proof; an 1873S Trade Dollar, in Gem BU; an 1895 Morgan Dollar, in Ch. Brilliant Proof; a 1901 $2 ½ Gold, in Ch. Brilliant Proof; a rare 1842O $10 Gold, in BU; and better date Carson City twenties—1872 and 1879.

This Week's Market

MERCURY DIMES: There is very little movement in the Mercury Dime chart as buyers maintain their Bids at previous levels. The most active areas continue to be the Full Band specimens.

WALKING LIBERTY HALVES: The Walker series is still as active as it has been for a very long time. From MS63 to the higher grades, several dealers need specific coins for their customers. In the majority of cases, dealers are reluctant to post higher Bids as this tends to be used against them by a potential seller. When a dealer increases a buy price, a seller will just increase his asking price that much higher, thus maintaining the same spread.

DOLLARS: The Dollar market continues to be one of the leaders of the current rise in activity. Numerous dealers are looking for specific issues, in grade, for their customers. Common dates are not on many want lists right now, but the rare dates seem to be the most sought after. It appears that the very low population coins are experiencing the most attention as the potential buyers realize that there are not enough of them to go around. If you are not willing to pay a little more right now, you may have to pay a lot more later on to get these elusive issues.

PROOF SETS AND MINT SETS: Despite a few sporadic declines in these two charts Proof and Mint Sets are still wholesaling at a steady pace. Several marketmakers are constantly trying to buy several hundred of particular issues and will usually find smaller quantities from various sources. These two charts appear to be very healthy at this time.

COMMEMORATIVES: Buyers for Silver Commems have adjusted their Bids in order to reduce the number of coins they buy. There seem to be more supplies on the market than the buyers need at this time. However, we have not monitored much in the way of discounting as of yet. This may be an area to watch out for in the next couple of weeks. Gold Commems are steady this week, but some of the primary buyers are currently out of the market. Modern Commems are mostly steady at listed Bid levels; there are several changes throughout the chart.

TYPE: You will not see many changes in the Type chart this week as the majority of buyers continue to offer the posted Bid for coins they need. Yet, nearly every single issue has current buyers for properly graded coins. Further, the market for most issues is as dense as it has been for a long time.

GOLD: The U.S. Gold chart is a mixture of activity; some bids are rising, while some are down slightly. It all depends on the needs of the individual dealers. The majority of Mint State issues are steady at reported Bids. The only reason some of these are lower is that buyers have dropped their Bids somewhat. Some of the circulated issues are soft as sellers lower prices.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by those which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3A which contain BU and Proof Rolls.

QUIET MARKET CONTINUES STEADY

The Market in Depth

Over the last several months it has become painfully obvious that the most active areas of the market are the ones where coins actually trade very infrequently. We are speaking of low-population coins that are also considered rare. **[Editor's note: Remember, there are some coins with low-populations that are only rare because there have not been many certified. A low-population of a common date coin does not make it a rare coin, it just means that it is not necessarily worth being certified.]** More specifically, the Dollar market is seeing some very active Bids for coins that are not often seen in most inventories. These are the coins that collectors have decided that they need to try to purchase now before they really go up in value.

Several dealers are trying to help their customers lure these coins out of their hiding places with higher Bids. If you look at the original mintage figures of some of these Dollars and factor in the vagaries of history (meltings, wear and tear, characteristic strikes, etc.), couple these with the knowledge that has been gained and distributed over the last twenty years through vigorous numismatic studies, the conclusions that can be drawn are subtle. The rare Dollars are just that—rare coins. As we approach the year 2000, numismatics may reach the status of other art forms. If this is the case, values for rare Dollars, and all rare coins, could be astronomical.

While the market appears to be somewhat quiet this past week, many dealers are getting ready for the Long Beach Show. Along with this major event, Heritage Numismatic Auctions, Inc., will be conducting one of their many sales; over 2200 lots, many of which come from old-time collections and encompass many key date coins. Some of the upcoming highlights include an XF 1794 Large Cent; an 1898O Barber Quarter, in MS65; an 1811 Bust Half, in MS60; an 1826 Bust Half, in Pr63; and an 1851C $1 Gold, in MS60. Some other highlights are listed to the right:

This Week's Market

CENTS THRU HALVES: There seems to be less discounting in the BU roll market the past couple of weeks. More dealers are willing to pay current levels for the rolls they need In fact, several dealers are looking for specific rolls (Lincolns more than anything else) and are raising their buy prices in order to get them. Every denomination is generally solid at today's Bids.

MERCURY DIMES: Full-Band Mercury Dimes remain very firm at listed Bids. Apart from these active Bids, the balance of the market shows a little less interest.

WALKING LIBERTY HALVES: Again this week, the Walker series portrays the same story. MS63 and better grades are on many want lists; dealers are willing to pay Bid for the issues they need. However, the mintmarked early issues will command more than reported Bids.

DOLLARS: As we reported in the Market in Depth column, the Dollar market is extremely busy at this time. No, common date Dollars are not very impressive, but the better dates and rare dates are. If you have accurately graded better/rare date coins, they are easy sellers. Buyers are especially interested in MS64 and higher grades, but will take the "right" MS63s also. Mintmarked Peace Dollars, in MS65 or better, appear on many want lists. If these coins are white, they will command even higher levels than we currently list.

PROOF SETS AND MINT SETS: These two areas have seen lots of solid Bidding activity in the last week. Virtually every issue (both Proof and Mint) has consistent buyers at today's Bid levels. In some cases, Bids have inched up slightly. In several instances, buyers are looking for hundreds of sets of specific issues.

COMMEMORATIVES: The Silver Commem chart contains a few declines, here and there. Despite the fact that several dealers have reduced their buy prices, we are not seeing a huge sell-off at this time. In fact, some issues still have support at current levels. This is still an area to watch for a swing in direction. Gold Commems are slightly soft as the major supporters of this series have decreased their Bids.

TYPE: In the Type charts you will see some tightening of spreads in certain more common issues, thus a few declines appear, although the overall trend is very sound. Moreover, there are numerous buyers, in these areas, for quality coins that are priced comparable to the actual grades.

GOLD: The Gold chart remains an area of very heavy Bidding activity. Granted, there are a few declines to go with several increases in the Mint State categories, but the number of potential buyers is very dense. In many examples, the buyers are within 10% or less of each other.
